

## **LifeGroup Study Guide (Discover LG Vol. 4)**

### **Main Idea**

There are four components that Christians must have to be thriving in our relationship with Jesus Christ. These components are going to church, spending alone time with God, getting involved in a group, and serving Him by serving others. A follower of Jesus can't have one without the others.

### **Ice Breaker**

What's the longest period of time you went without eating?

How does hunger effect you?

**Scripture Reading: Matthew 4:4, Hebrews 3:13, Psalm 122, 1 Corinthians 12:4-7  
Psalm 1:2-3, Acts 5:42**

### **Discussion Questions**

In Psalm 1:2-3, what is the "law" referring to?

What is the point of the tree comparison in Psalm 1:3?

How do the Scriptures above pertain to the four components that Christians need to thrive in our relationship with Jesus Christ?

Do you have any questions concerning these four components that Christians must have?

- If so please contact any of the pastors, staff, or LifeGroup Leaders

Now that you have read, studied, and discussed these passages; what will you do about it? What actions will you take?

## **Prayer**

### **Take Away**

Look at tree below. Let this picture be a reminder of how we can be thriving in our relationship with the LORD. Marvel at the tree's beauty. Marvel how its roots grow deep into the ground and expand out. Marvel at how the branches spread out and the vastness of it all. The tree thrived; it grew because it's nourished by the water. Jesus is the living water and when you know and obey His Word you too will grow in your relationship with Him.
