Pastor Jesse Waggoner

Money Myths: You Are What You Own

Luke 12:15

1. It's not bad to have things

No hint that he was dishonest

No problem that fields produced

No problem that he had a choice to make

2. It is bad to be had by things

His focus was on only getting more

His focus was on only enjoying more

His focus was devoid of eternal values

3. It is good to have things in their proper place

See God as the ultimate value

See things as a means to honor God

See life from heaven's perspective

Set a practical plan in place

Conclusion: You are not what you own, you are defined by the One who owns you.
