

Basic understandings

1. The Bible is not written to reveal everything (2 Tim. 3:16, 1 John 4:10)

But we can trust what it does talk about
It provides a framework to test all things
Clearly see the line between revelation and speculation

2. Satan tries to confuse everyone (Isa. 40:18-20, 41:5-7)

He doesn't have to contradict if he can confuse
There are many alternatives to the truth
He uses mankind's intellectual pride

3. Suggestions

Speculation is OK

As long as it is seen as speculation
As we fit it into a Scriptural framework
As long as it does not contradict the Bible

Speculation is not OK

If it tries to explain away God
If everything is supernatural
If nothing is supernatural

Bottom Line

Be a life-long student of the Word of God
(Psalm 19:7)
