### Talking Animals

Numbers 22:22-35

#### The Strange Factor:

The Bible on two occasions describes animals that talk

#### The Underlying Meaning:

The question is not: if animals can talk

The question is: can God work miracles?

God does use the unusual to capture our attention

The irony is: the seer couldn't see but the  
dumb could talk

#### The Lessons for Us:

We often miss the obvious

We have a disconnect between head and heart

We must keep our eyes of faith open

We must monitor our eyes of flesh
